# More About Me

**WILSON JUMA : FOUNDER : HYPERLEX DEVOPS**

I'm a passionate Technophile and a self-taught developer. Ready to learn new Technologies. Solution-driven Web Developer adept at contributing to highly collaborative work environment, finding solutions and determining customer satisfaction.

I started loving about Tech in my early teenage in my high school education. Since beginning my journey in Tech 3 years ago, I've done remote work, consulted for startups and collaborated with talented people to create digital products for both business and consumer use.

I'm quietly confident, naturally curious, and perpetually working on improving my chops one design problem at a time. I truly enjoy crafting digital experiences; whether that is handling the UX/UI design, leading the software development by example or managing the entire project.

# About Me

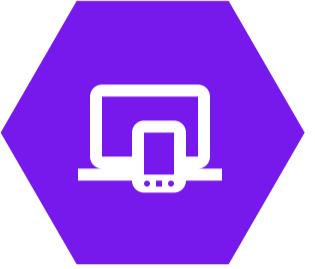

I help designers, small agencies and businesses bring their ideas to life.

Powered by Figma, VS Code and coffee, I turn your requirements into CMS-ified and ecommerce-ified websites - on time and on budget.

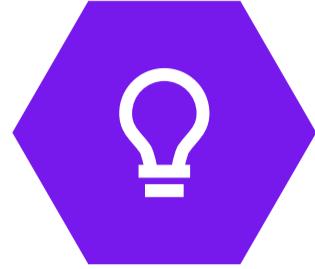

## Fast

Fast load times and lag free interaction, my highest priority.

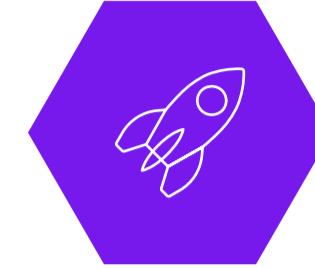

## Responsive

My layouts will work on any device, big or small.

## Intuitive

Strong preference for easy to use, intuitive UX/UI.

## Dynamic

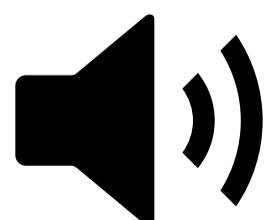

I love making pages come to life.

## So who's this Guy?

Ever since I created my first website at the age of 16, I've always been excited with the idea of crafting something that people can interact with. I'm a Front-End Web Developer, UI/UX Designer, Graphic Designer, Video Producer and IT Specialist powered by Passion and Enthusiasm. On my free time, I enjoy expanding my programming knowledge and building dynamic web applications. Other than programming, I like playing piano, exercising and listening to music.

Have a nice day and thanks for visiting my site! ▶

Let's make something special.
